

GLOBAL CERTIFICATION PROGRAM

Data Engineering

→ Become an AWS Certified Data Engineer.

Intermediate → Advanced

16 weeks

190 hours

Online \$3,505

On-site \$3,715

Build, automate and scale the data pipelines that power modern analytics and AI. You train on real pipeline engineering, then sit and pass official global exams from AWS, Microsoft and Databricks.

CERTIFICATIONS YOU'LL EARN

Globally-recognised credentials.

Amazon Web Services	AWS Certified Data Engineer – Associate · DEA-C01 · \$150
Microsoft	Fabric Data Engineer Associate · DP-700 · \$165
Databricks	Databricks Data Engineer Associate · \$200

CURRICULUM

11 modules · 190 hours · AI-accelerated.

01	SQL & Python foundations Advanced SQL & query tuning · Python for data · Git & workflows	22h
02	Data modelling & warehousing Dimensional / star-schema modelling · Parquet & partitioning · lakehouse architecture	18h
03	ETL / ELT pipelines Batch & streaming ingestion · orchestration & scheduling · API / file / DB / stream sources	22h
04	Apache Spark & Databricks PySpark · Delta Lake & Lakeflow · performance tuning	22h
05	AWS data engineering Glue · S3 & Redshift · Step Functions · security & governance	22h
06	Microsoft Fabric & Azure Fabric pipelines · KQL · data governance	18h
07	Data quality, governance & CI/CD Testing & monitoring · cost optimisation · version control	16h
08	AI-accelerated data engineering LLMs in data pipelines · AI-assisted SQL & code (Copilot) · GenAI for data quality & docs · vector / RAG data basics	14h
09	Capstone project End-to-end pipeline · portfolio build · code review	16h
10	Certification prep & exams Mock exams · exam strategy · sitting DEA-C01 / DP-700 / Databricks	12h
11	Career & personal branding Resume & interview prep · LinkedIn headshot, profile & content we post for you · internship onboarding	8h

FEES

Two ways to study. One all-in price.

Tuition

190 hours × \$15/hour

\$2,850

per instructional hour

Certification & exam vouchers

AWS Certified Data Engineer – Associate Amazon Web Services · DEA-C01	\$150
Fabric Data Engineer Associate Microsoft · DP-700	\$165
Databricks Data Engineer Associate Databricks	\$200
Vouchers subtotal	\$515

Academy fees — both modes

Application & registration one-off	\$25
Learning materials & kit one-off	\$40
Student ID one-off	\$5
Favtoma certificate on completion	\$20

Online only

Online participation & LMS access online	\$50
---	------

On-site only

On-site participation (campus & labs) on-site	\$150
Medical on-site	\$30
Company excursions & conferences on-site	\$80
Feeding optional	\$10 / week

ONLINE ALL-IN*

\$3,505

ON-SITE ALL-IN*

\$3,715

*Excludes optional feeding and living costs. Exam-voucher prices are official vendor fees, current at publication. Software runs on free tiers / student licences (AWS, Azure & Google Cloud free tiers, Power BI Desktop, Tableau student licence, Figma); the Google foundations use a Coursera subscription. Flexible & instalment options available.

Included with this track

- Resume / CV & interview preparation
- LinkedIn profile optimisation
- Company excursions & industry conferences
- Hands-on capstone & portfolio
- Professional LinkedIn headshot
- LinkedIn content created & posted for you
- AI-accelerated workflow in every module
- Internship placement

HOW IT WORKS

Train here. Get certified globally.

01 Train hands-on

Real projects with practitioners; AI-accelerated workflows in every module.

02 Get exam-ready

Official curriculum, labs and mock exams to certification standard.

03 Sit the global exam

You take the official vendor exam — and pass.

04 Get certified & placed

Globally certified, work-ready, with an internship.

TERMS OF SERVICE

The essentials.

1. **Enrolment & payment.** Fees are due before the programme begins; instalment plans are available on request. The application & registration fee secures your place and is non-refundable.
2. **Study mode.** Online fees exclude on-site items (medical, feeding, on-site participation and in-person excursions). Switching mode after enrolment may change the fees payable.
3. **Exam vouchers.** Official certification exam fees are paid to the relevant vendor (AWS, Microsoft, CompTIA, NN/g, etc.). We prepare you for and help you register to sit each exam; passing the official exam is required to earn the global certification and is not guaranteed.
4. **Certificates.** A Favtoma Academy certificate is awarded on successful completion. Global industry certifications are awarded by their respective bodies on passing their official exams.
5. **Career services & internship.** Resume, LinkedIn and personal-branding services and internship placement are included. Placement depends on performance and availability and is not a guarantee of employment.
6. **Attendance & conduct.** Minimum attendance and a code of conduct apply; serious breaches may result in dismissal without refund.
7. **Refunds & withdrawal.** After a programme starts, refund eligibility reduces on a sliding scale; application fees and any consumed exam vouchers are non-refundable.
8. **Changes.** Favtoma may update curricula, schedules and fees; vendor exam prices are set by the vendors and may change. Published fees are current at the date of issue.
9. **Privacy & ownership.** Personal data is handled per our privacy policy; the LinkedIn content and headshots we create for you remain yours.

These are summary terms; full terms & conditions are provided at enrolment. Fees are quoted in USD and are current at the date of issue.
